Service to the Environment

Southern Lady Bedding & Window Coverings is committed to sustainable and responsible business practices through eco-friendly products and components, efficient operations, and recycling initiatives.

Natural Quilted Cover Options

FOAMS THAT FEEL GOOD
AND YOU CAN FEEL GOOD ABOUT

Renew™ is produced with Carpenter Co.'s Natural Foam Technology™ process, ensuring the consistency and quality Southern Lady customers have come to expect. It's bio-based, allowing customers to leave a smaller environmental footprint, while reducing our nation's dependency on foreign oil.

CertiPUR-US® certification requires low-emissions for indoor air quality, and products made without ozone-depleters, formaldehyde, PBDE's, prohibited phthalates, lead, mercury and other materials of concern.

Post Consumer Recycled Steel Coils

Southern Lady's innerspring mattresses contain coil systems from Leggett & Platt, who uses 95% recycled steel in their mattress coil manufacturing process. Close to a million tons of recycled scrap steel are used in the manufacturing of Leggett & Platt products each year.

Future Foam developed the HARVEST® line of foam products, which utilize a blend of natural oil (such as Soy) polyol and conventional polyols. This benefits farmers looking for new markets for the crops they grow.

OEKO-TEX® textiles and fabrics are certified free of harmful chemicals and are safe for human use. All fabric designs meet Oeko-Tex 100 standards, which are internationally recognized safety standards for harmful substances.

History

Our Company

Julius H. Weil began manufacturing mattresses and boxsprings on Anson Street in Charleston, SC over 100 years ago. Southern Lady moved to Meeting Street in the 1970's, and moved again in 2000 to a 60,000 square foot state-of-the-art plant in North Charleston.

This fourth-generation company **remains family-owned and operated**, manufacturing wholesale mattresses to residential stores, hotels and resorts, colleges, cruise ships and more. Browse our proven models and contract us if you would like a custom model built just for you.
