Made with  
**MICRONONE®**  
Fabric Technology

Along with the painstaking detail invested into design and the handcrafting of our mattresses to create the works of art seen throughout this collection, there are a few **hidden features** that come standard on all Southern Lady® Boutique mattresses.

### Platform Friendly with 10-year warranty

Every Southern Lady mattress is platform friendly. We take a lot of pride in the product that we've been building for 110 years, and we like all of our customers and their patrons to rest assured.

### DuraLast Allwood Boxspring

Our Noiseless, Abuse Proof, Sustainable foundations are made for commercial utility and are guaranteed for life. These are manufactured in-house in accordance with the Forest Stewardship Council, giving us the ability for custom heights of 9", 6", 4", and 2.25"

### Fully Foam Encased Edges

People use hotel beds differently than their beds at home. There is a demand for superior durability and edge support that only foam encasement can provide. Our mattresses possess the highest integrity (1.8 density foam) to complement its breathtaking appearance and feel.

# Service to the Environment

Southern Lady® is committed to sustainable and responsible business practices through eco-friendly products and components, efficient operations, and recycling initiatives.

SOUTHERN LADY

SLEEP BETTER. FEEL BETTER.

Hand made in Charleston, SC since 1914

Natural Quilted Cover Options

Renew™ is produced with Carpenter Co.'s Natural Foam Technology™ process, ensuring the consistency and quality Southern Lady customers have come to expect. It's bio-based, allowing customers to leave a smaller environmental footprint, while reducing our nation's dependency on foreign oil.

CertiPUR-US® certification requires low-emissions for indoor air quality, and products made without ozone-depleters, formaldehyde, PBDE's, prohibited phthalates, lead, mercury and other materials of concern.

Post Consumer Recycled Steel Coils

Southern Lady® innerspring mattresses contain coil systems from Leggett & Platt, who uses 95% recycled steel in their mattress coil manufacturing process. Close to a million tons of recycled scrap steel are used in the manufacturing of Leggett & Platt products each year.

Future Foam developed the HARVEST® line of foam products, which utilize a blend of natural oil (such as Soy) polyol and conventional polyols. This benefits farmers looking for new markets for the crops they grow.

Oeko-TEX® textiles and fabrics are certified free of harmful chemicals and are safe for human use. All fabric designs meet Oeko-Tex 100 standards, which are internationally recognized safety standards for harmful substances.

# Our Story

This fifth-generation company remains family-owned and operated, manufacturing wholesale mattresses to residential stores, hotels and resorts, colleges, cruise ships and more. Browse our proven models and contract us if you would like a custom model built just for you.

Julius H. Weil Anson Street in Charleston, SC 1914

Manufacturing Plant, North Charleston, SC 2019

Julius H. Weil began manufacturing mattresses and boxsprings on Anson Street in Charleston, SC over 100 years ago. In the 1970's, Southern Lady® moved to Meeting Street, and moved again in 2000 to a 60,000 square foot state-of-the-art plant in North Charleston.
